AN INTRODUCTION

To Our Old and New Customers:

We are just starting our eighteenth year in the nursery business and hope that we have justified our existence by offering to our many customers the best in fruit plants and trees. Our nursery is ideally located in the very heart of the fruit belt, for which Michigan is so famous. We have become experienced in growing and culture of high grade nursery stock through a lifetime of practical experience in the business of raising profitable fruit crops for the commercial markets of the middlewest.

We have not spent a lot of money on a fine colored catalog as we feel that you will appreciate our simple price list and take advantage of our lower prices which we are able to quote by cutting down on printing expenses. As this is our only salesman, we again take the pleasure in coming to you with this price list of very good nursery bargains. We again offer you the highest quality hardy northern grown stock at wholesale prices. Through these annual price lists and your business with us, we feel acquainted with you. Whether your order is 50c or \$50.00, it will receive our personal attention and you will get a square deal. We advise you to have shipments made by express wherever possible due to the cheap rates and the better handling of the plants on the journey to you.

All shipments are accompanied by a Certificate of

We guarantee our stock to be strong, healthy, full count, true-to-name, free from disease and fresh dug.

A Certificate of Inspection accompanies each order.

inspection by the State of Michigan so that you are assured of strong healthy plants and trees that will grow, with proper care to bring you handsome profits in the near future.

The earlier you place your order, the surer you will be that we have in stock what you want because, later in the season we frequently run out of some varieties, therefore, when you order late, state whether we should substitute something equally as near the variety ordered. We never substitute without the permission of the customer.

We pack our nursery stock in moist moss, fresh-dug and in good condition, but in case of unfavorable conditions they do not reach you in good shape, please notify us, as well as the postman or expressman.

We wish to sincerely thank our old customers for their patronage, and to our new customers, we'll strive to make them one of our satisfied customers.

With our three sons in service we were pretty short on help but now that they are returning we hope to give our customers a better, faster service with their dependable help.

Very truly yours,
HARTLINE NURSERY
George W. Hartline & Sons.

GRAPE VINES

Plant a vineyard for a money-making investment. We grow our own Grape Plant Cuttings taken from our heavy producing vineyards, where the greatest care is taken in selecting cuttings from the vines that are healthy and heavy producing. Michigan vines rank among the finest vines because of our soil and location; you can depend on ours being the finest. Really good grape vines are scarce because it requires proper soil and care to produce a first grade grape vine. We have an extra grade of fine grape vines this year.

CONCORD

This variety is the most popular Grape for commercial and home use, being a large blue-black berry in extra compact bunches. It is sweet and juicy which commands fancy prices on all markets. It ripens in October.

Prices-2 yrs., 1 for 25c; 6 for \$1.25; 12 for \$2.25; 25 for \$4.00.

Everbearing Strawberries

MICHIGAN STATE DEPT. of AGRICULTURE

Certificate of Strawberry Red Steele Inspection—This is to certify that Strawberry Plants of Hartline Nursery, Baroda, have been examined and found apparently free from the Red Steele disease as well as other strawberry diseases and insects. Date of First Inspection 6-1-45; Date of Second Inspection 9-26-45. Fee paid \$2.50. Chas. Figy, Commissioner. This certificate to be void after Sept. 15, 1946. Lansing, Mich. 10-9-45. C. A. Boyer, Director Bureau of Plant Industry.

THE GREAT MASTODON

One of the leading everbearers, of fine berries, from the beginning of the season to the end. The berries are large, deep red in color. Will bear 90 days after planting, you will have berries all summer and fall up until hard freezing weather. Include Mastodon in your order.

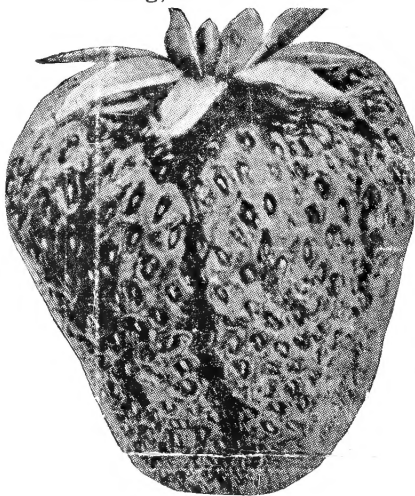

Prices—25 for \$1.00; 50-\$1.65; 100-\$3.00

GEM—The Wonder Berry

We have here a mighty fine everbearer that will supply you with large, bright red, sweet in flavor berries 90 days after planting, until way late in the fall. This variety will make a large fruiting row. This is a good commercial berry for late fruit market.

This everbearer will make you extra profit because of its fine, true strawberry flavor which isn't found in many of the everbearers. Its large size and firmness make it a good seller. Without hesitation, we recommend Gem for all who want to try Everbearers in their garden.

Prices—25 for 85c; 50 for \$1.40; 100 for \$2.50; 250 for \$6.00; 500 for \$11.00; 1000 for \$20.00; 2000 for \$37.00.

BUREAU of PLANT INDUSTRY NO. 275

The New MINNESOTA "1166"

This everbearer was originated by the Minn. Experiment Station. The new Minnesota is a heavy producer with large, rich, dark red berries and does not have a green tip. The flavor is sweet and the berry is firm, making it an excellent shipper. The plants are hardy and produce plants freely.

Prices—25 for \$1.40; 50 for \$2.25; 100 for \$4.00; 300 for \$9.00; 1000 for \$28.00.

PREMIER—(Early)

The best leading berry that has stood the test of years growing and heavy production and is early enough to demand a fancy price, a moneymaker for any grower. Its deep, heavy roots enables it to withstand dry weather and mature full crops of nice, large berries which are bright red and firm to insure good shipping qualities. The Premier is an excellent canning berry, therefore, it can not be beat for home use.

More Premier plants have been sold in the last few years than any other kind. Premier is planted in larger quantities than any other early variety. For greater profits, plant them.

Prices—25 for 85c; 50 for \$1.50; 100 for \$1.90; 250 for \$3.60; 500 for \$7.00; 1000 for \$13.50; 2000 for \$25.00.

CATSKILL—(Late)

This berry was originated by the New York Experimental Station. The Catskill is a late ripening variety. The berries are medium red, large, well shaped, firm, making it a good shipper. Being a late variety, it brings good prices as the early berries are gone. Be sure to include the Catskill in your order.

Prices—25 for 85c; 50 for \$1.50; 100 for \$1.90; 250 for \$3.60; 500 for \$7.00; 1000 for \$13.50; 2000 for \$25.00.

ROBINSON

— KING OF THE STRAWBERRIES —

This berry was originated in Berrien County in Southern Michigan the heart of the fruit belt. The best medium to date. Berries are extra large and retain their size until last picking. A very pleasing color of Cardinal Red. Ripens shortly after the Premier and is still fruiting with late kinds. Grows good on any good soil adapted to berries; very hardy. Order your plants early as stock is very limited this year.

Prices—25 for 85c; 50 for \$1.55; 100 for \$1.80; 250 for \$3.40; 500 for \$6.50; 1000 for \$12.00; 2000 for \$21.00.

SET PLANTS IN EARLY SPRING!!

Early spring is the logical, natural, and most successful time to set strawberry plants. Don't neglect setting some plants this spring, if you want a crop next spring or early summer. Fall planting (even if plants live) will mean little or no crop until the season of 1947.

Everbearing varieties, even more than others, should be set early in spring for the best results for fall fruiting.

SENATOR DUNLAP—Old Reliable Moneymaker

This variety is considered the oldest and hardiest of Strawberries. They will grow on very nearly any kind of soil or in most any climate, producing a fine crop of berries which are dark red and firm; a very good canner.

Most of the canning factories buy nothing but Senator Dunlap as they always are firm, which means they will hold their shape when canned. Their rich deep red color is very pleasing. We have a large supply of plants, but owing to the large demand, order your plants early to avoid disappointment.

Prices—25 for 60c; 50 for 90c; 100 for \$1.50; 250 for \$3.00; 500 for \$5.50; 1000 for \$10.00; 2000 for \$17.50.

RHUBARB

What is more appreciated after a long winter than some fresh tender Rhubarb from the garden.

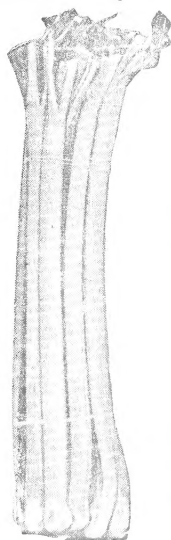

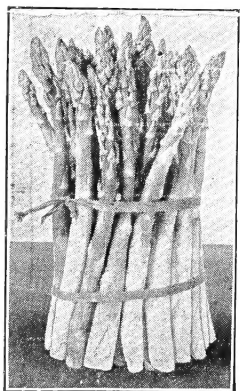

This variety is not tough or stringy the stalks are bright red. A good profitable crop for the home garden. Large roots.

Prices—2 yr., extra large. 6 for 50c; 12 for 90c; 25 for \$1.60.

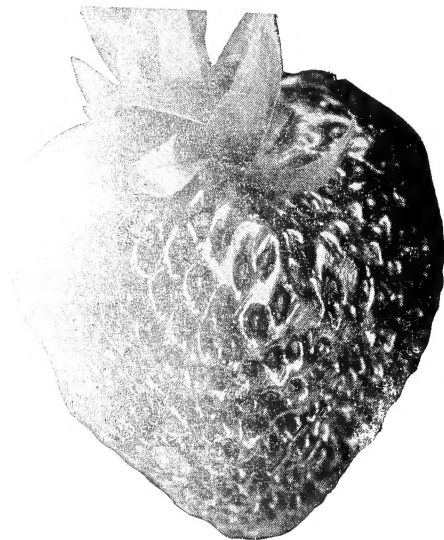

MARTHA WASHINGTON Asparagus

We find this new variety which was developed by the U. S. Dept. of Agriculture has fine and larger stalks, tender and very productive. The heads are solid and compact, which makes it a good seller. Try it.

Prices—1 yr., 25 for 60c; 50 for \$1.00; 100 for \$2.00; 250 for \$3.50; 500 for \$6.50; 1000 for \$12.00. — 2 yr., 25 for \$1.10; 50 for \$2.05; 100 for \$3.75.

you a few berries this summer and a good picking next year. \$8.00. We have bearing size plants in both varieties.
